

METAL HANDLING

Your Safety Our Priority

The Company

Our History

The story of Sall began in 1975 in Caviago, in a small artisanal workshop specialising in metalworking and the production of industrial containers. During the 1980s, the company expanded its product range by designing innovative solutions for workplace safety. This unstoppable growth led to Sall's acquisition by Justrite Safety Group in 2017, a global leader in industrial safety.

Our Priorities

- Ensuring the safety of people and the environment
- Products compliant with EU standards and regulations
- Comfort, ease of use, and unique design to enhance effectiveness and simplify every operation.

All our standard products and customised solutions are designed and manufactured in compliance with current regulations and are tested to provide the highest level of safety for people, workplaces, and the environment.

The Group

A Growing Family

In recent years, we have expanded Justrite Safety Group by acquiring other strong and valuable companies. These exciting developments have resulted in: an unrivalled safety portfolio, consolidated expertise in environmental protection, a global network of brands, and unwavering dedication to the safety of our customers.

Start with the Essential

The essence of our group is captured in a single slogan: *Start with the Essential*SM.

At Justrite, everything begins with safety. Protecting people, property, and the planet is our first and foremost responsibility.

PRODUCT INDEX BY CATEGORY

TIPPING CONTAINERS & BOTTOM-OPENING CONTAINERS

a. Tipping scrap containers

1. Tipping scrap containers with manual release.....	p.	7
2. Tipping scrap containers with dynamic release.....	p.	12
3. Mesh tipping scrap containers.....	p.	12
4. Tipping bins.....	p.	13
5. Tipping scrap containers for forklifts with rotating forks.....	p.	13

b. Bottom-opening containers

1. Containers with a single opening bottom panel.....	p.	15
2. Containers with double opening bottom panels.....	p.	16

CONTAINERS FOR INDUSTRY

a. Sheet metal containers

1. Steel sheet metal containers.....	p.	18
2. Sheet metal containers with flat bar skids.....	p.	22
3. Open-front containers.....	p.	22
4. Foldable, stackable sheet metal containers.....	p.	23
5. Foldable sheet metal containers with lids.....	p.	23

b. Mesh containers

1. Steel mesh containers.....	p.	25
2. Mesh containers with wheels.....	p.	29
3. Gitterbox model mesh containers.....	p.	30
4. Foldable, stackable mesh containers.....	p.	30
5. Foldable mesh side panels.....	p.	30
6. Multifunctional containers.....	p.	31

METAL PALLETS AND PLATFORMS

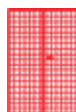

a. Open post pallets

1. Open post pallets with feet.....	p.	33
2. Open post pallets with skids.....	p.	33

3. Open post pallets with removable wooden deck.....	p.	34
4. Pallets with detachable posts.....	p.	34
5. Bar storage pallets.....	p.	35
6. Foldable, stackable pallets.....	p.	36
7. Sides for wooden pallets.....	p.	36
8. Fabric storage pallets	p.	36

b. Metal platforms

1. Metal platforms with 2 skids	p.	38
2. Metal platforms with 3 skids.....	p.	39
3. Reversible double-bottom metal platforms	p.	39

CABINETS AND STORAGE UNITS FOR GAS CYLINDERS

a. Boxes and storage units for gas cylinders

1. Safety storage units for compressed gas cylinders.....	p.	41
2. Safety cabinets for compressed gas cylinders	p.	42

b. Pallets for transporting gas cylinders

1. Pallets for transporting compressed gas cylinders.....	p.	44
2. Trolleys and supports for compressed gas cylinders.....	p.	44

CONTAINERS FOR WASTE COLLECTION

a. Big bag holders

1. Big bag holder pallets.....	p.	46
2. Big bag holders with collection tray	p.	49
3. Big bag holders with lid.....	p.	49

A black industrial tipping container on wheels is positioned in a warehouse aisle. The container has a large lid and a tipping mechanism at the front. It is surrounded by tall metal shelving units filled with various items. The container has safety labels on its side.

TIPPING CONTAINERS & BOTTOM- OPENING CONTAINERS

a. ***Tipping scrap containers***

The ideal solution for the collection, transport, and disposal of industrial waste, shavings, scraps, and debris in a safe and efficient manner. All models in the Sall container line are equipped with safety features, including an anti-tipping mechanism and an automatic unloading system for forklift operations.

Tipping scrap containers

Tipping scrap containers with manual release

The best solution for the safe collection, handling, and unloading of waste, scraps, and debris.

- Simple and safe emptying system activated by a lever, remotely controlled by the operator (without leaving the forklift)
- Easy to manoeuvre and position thanks to four large diameter wheels (2 fixed, 2 swivel)
- Wide range of sizes available
- Consistent performance over time
- On request: settling tank and ball valve, removable or hinged lid, independent hydraulic cylinder for gradual tipping.

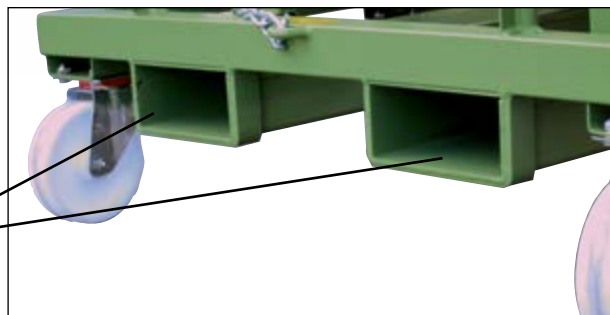

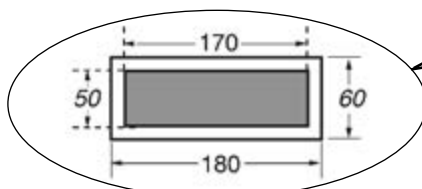

CE

A full range of colours is available, corresponding to the different types of waste.

**Item code
LT 1600**

Tipping scrap containers

Tipping scrap containers with manual release

ACCESSORIES AVAILABLE UPON REQUEST:

1 SETTLING TANK WITH 4MM HOLE MESH GRID AND BALL VALVE FOR SEPARATING LIQUIDS FROM SOLIDS.

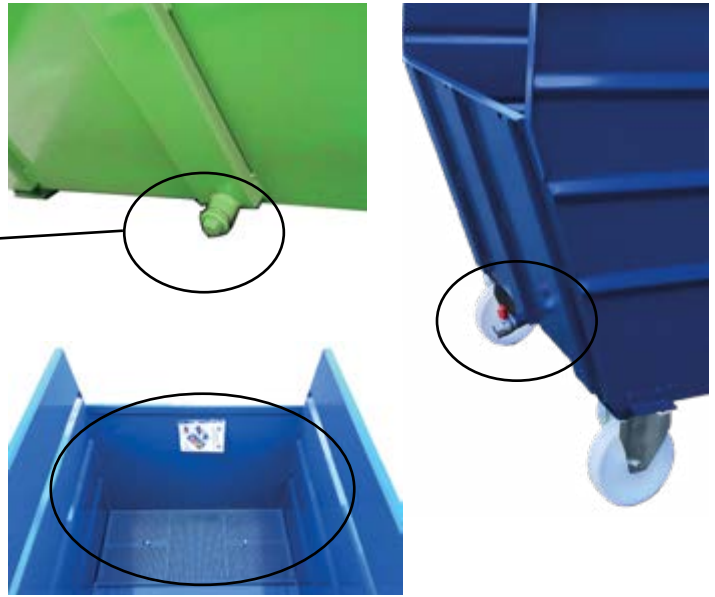

All tipping containers are equipped with:

- Sleeve
- 1" cap
- Nut and corresponding M12 closure bolt on the tank bottom.

At any time, it will be simple and immediate to:

- Unscrew the cap and discharge accumulated liquids
- Attach the ball valve (accessory available separately)
- Attach the settling grid (accessory available separately).

Item code
VR

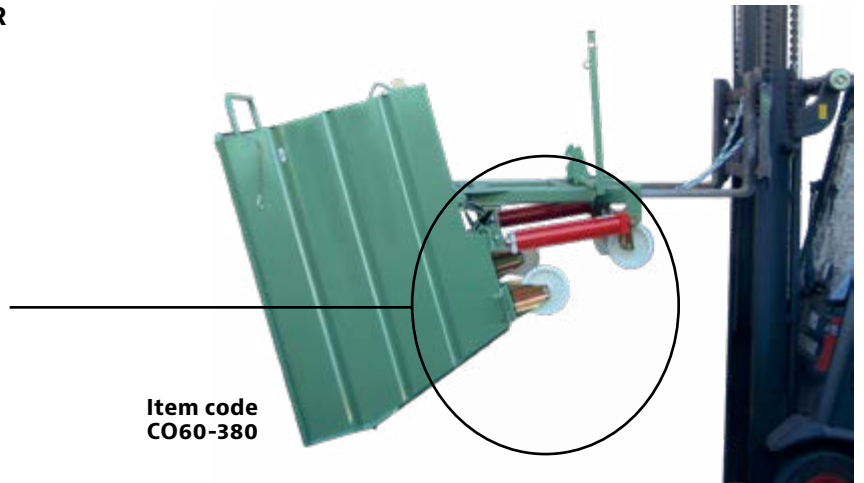

2 INDEPENDENT HYDRAULIC CYLINDER FOR GRADUAL TIPPING OF SCRAP CONTAINERS

The installation of the cylinders does not increase the dimensions, as they are mounted within the container's footprint.

For larger models, we recommend applying a hydraulic cylinder on both sides to ensure better balance during unloading.

For models from LT1600 to LT2000, the application of 2 hydraulic cylinders is required (see image **item code CO60-380**).

Item code
CO60-380

3 FIXED ADDITIONAL MESH SIDES FOR HANDLING BULKY MATERIALS

Fixed sides increase the capacity of the scrap container. When collecting bulky materials such as paper, cardboard, or boxes, the additional fixed sides provide the container with greater collection volume.

Available in mesh or sheet metal, with standard heights of 300 and 500 mm, or customised to your needs.

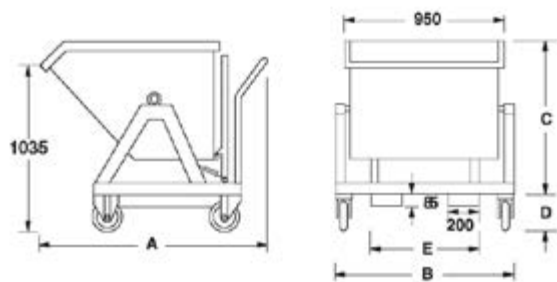

On request, all containers can be made of stainless steel or hot-dip galvanized.

Tipping scrap containers

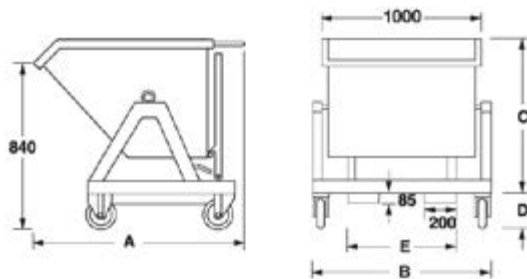

Tipping scrap containers with manual release

ACCESSORIES AVAILABLE UPON REQUEST:

- 1** HINGED LID, SPLIT IN HALF
- 2** REMOVABLE SHEET METAL LID WITH TWO HANDLES

- 3** RUBBER ANTI-VIBRATION PLUGS TO DAMPEN IMPACT DURING TIPPING

- 4** FORK LIFT BOXES WITH REINFORCEMENT COLLAR

- 5** SETTLING TANK WITH 4MM HOLE MESH GRID AND BALL VALVE FOR SEPARATING LIQUIDS FROM SOLIDS

Item code
VR

Tipping scrap containers

Tipping scrap containers with dynamic release

Products that comply with EU requirements regarding safety, health, and environmental protection.

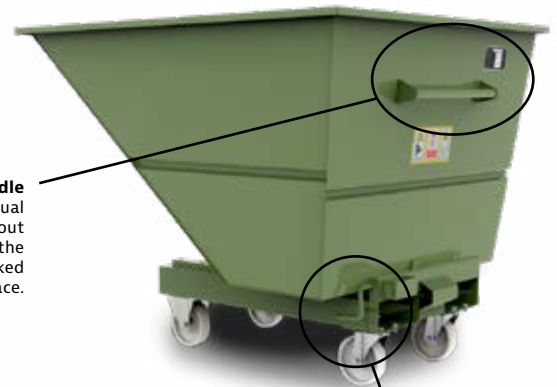

Rear Release Button

Allows the container to tip when pressed against a surface.

Collection Tank

Standard Base Support

Designed with an "ALL IN" philosophy to keep all components of the operating system within the container's footprint.

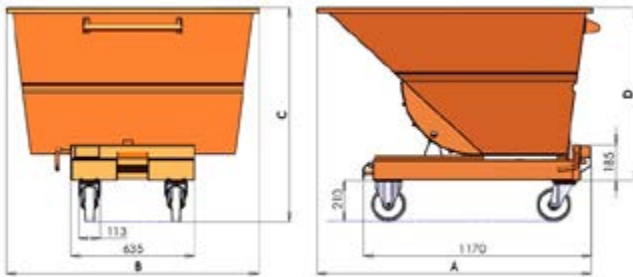

Push Handle

For manual handling without a forklift, with the container locked in place.

Item code
SDC 750

Front Release Lever

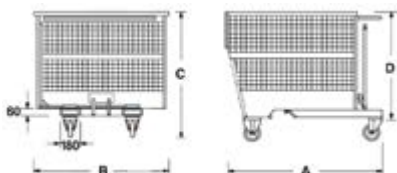

Manually operated lever that enables the tipping of the container.

SR 163	1000	1000	1100	60	-

Complete with:

- Tech mesh side for operator protection, equipped with a gas cylinder to facilitate opening and closing, also simplifying product storage when not in use
- Automatically closing, anti-vibration access door, opening only inward and featuring a safety lock
- Non-slip and anti-static safety rubber floor
- Shock-resistant polystyrene tool tray
- Safety device to prevent accidental fork slippage
- Attachments for using seat belts (not included).

FORKS TRUCK SCHEME

Available with slip-proof antistatic rubber base.

Available on request with wheels: 2 fixed and 2 swivel with brake (**item code SR 163 CR**).

METAL PALLETES AND PLATFORMS

***α.* Open post pallets**

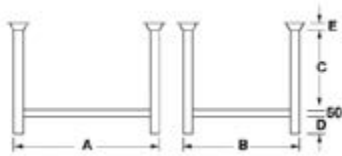

The open post pallets are high-capacity metal pallets that allow for handling with a forklift and vertical storage of bulky goods and materials in a warehouse. All stackable pallets feature a robust and durable steel structure with free-standing posts at the corners and are available in various versions.

A particularly versatile pallet. The uprights are easily removable by hand from their slots. Once removed and placed in the designated compartments, they help optimize space during storage and transportation.

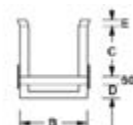

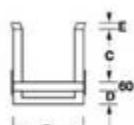

Certified models for being:

- Liftable with crane or overhead crane
- Customisable with sheet metal base, wheels (excluding **item code SP6000**) and fork lift brackets
- Ability to close the internal sides with sheet metal or mesh walls and/or crossbars for storing small tubes/bars
- Stackable 1 + 2.

METAL PALLETES AND PLATFORMS

b. ***Metal platforms***

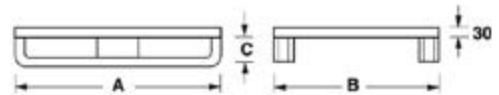

Ideal for the transportation, handling, and storage of heavy goods and materials in a warehouse, Sall platforms are made of carbon steel and are available in galvanized or powder-coated finishes. They are perfect for heavy loads, logistics, and sectors that require high strength, durability, and capacity.

IMPORTANT

The pallets must always be handled one at a time. They are specifically designed to be lifted and moved with a pallet jack or forklift; always perform lifting movements with the forks tilted towards the operator.

CABINETS AND STORAGE UNITS FOR GAS CYLINDERS

α. ***Boxes and storage units for gas cylinders***

The extensive Sall range offers cylinder storage units and boxes configured as cages and modular storage units equipped with anti-intrusion locks, designed to ensure compliant and secure storage of up to 36 cylinders. All models are customizable in terms of size and accessories. For specific requirements, made-to-measure cylinder storage units can be created.

CABINETS AND STORAGE UNITS FOR GAS CYLINDERS

b. ***Pallets for transporting gas cylinders***

The gas cylinder baskets produced by Sall are specific pallets for the storage and transportation of gas cylinders, designed to be safely handled by both forklifts and cranes. Made with a robust hot-dip galvanized steel structure, they are equipped with a fastening bracket and a safety device to prevent accidental falls of gas cylinders during transport, thereby maximizing safety levels.

CONTAINERS FOR WASTE COLLECTION

a. ***Big bag holders***

The Sall big bag holders ensure maximum safety during the filling, handling, and storage of big bags containing both industrial materials and hazardous substances or waste, such as in the case of big bag sacks. The stackable design and dismantable structure allow for optimized storage space as well as minimized bulk and transport cost.

Standard configuration

ITEM CODE	Description	W x D x H (mm)	Capacity (kg)
SPBN 120 Z	Standard configuration: 4 standard sack hook terminals + 1 hot-dip galvanized or painted base + 4 galvanized (hot-dip) or painted uprights	1080 x 1080 x 1347	1000

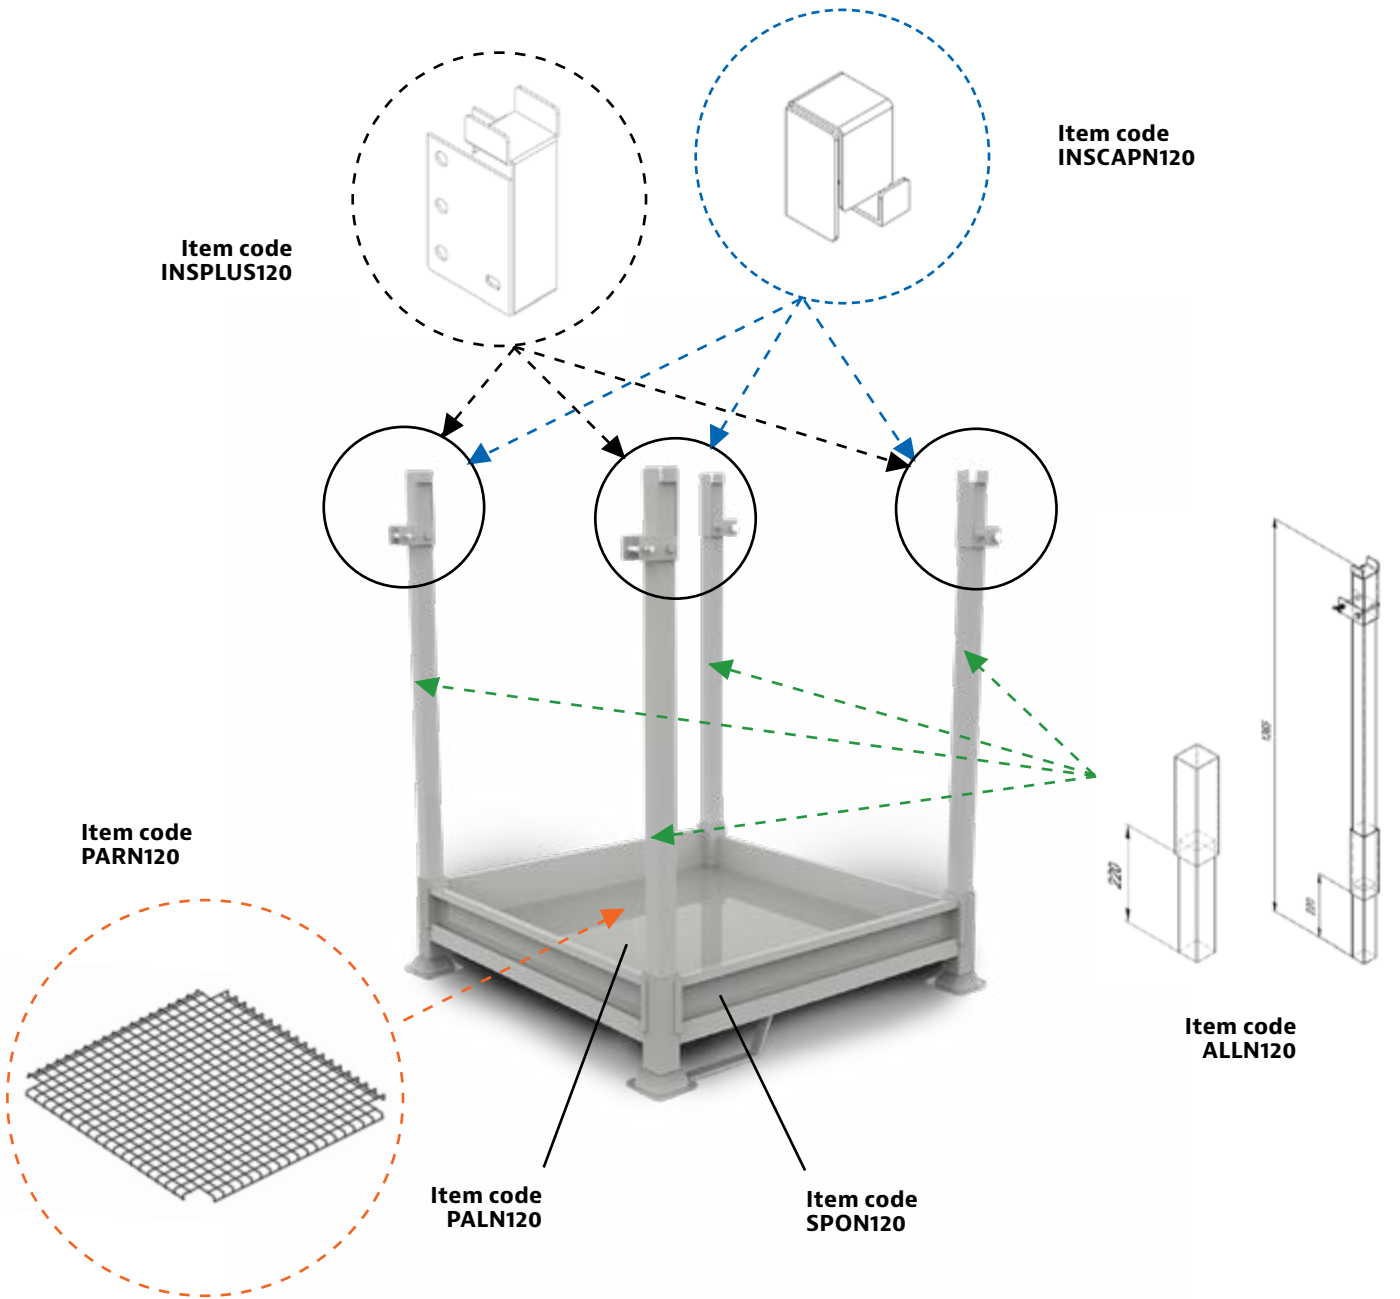

- 1. EASY TO HANDLE**
- 2. CONFIGURABLE** thanks to a wide range of available accessories (see next page)
- 3. SUITABLE FOR BOTH INDOOR AND OUTDOOR USE** due to the two available base versions (hot-dip galvanized and/or powder-coated).

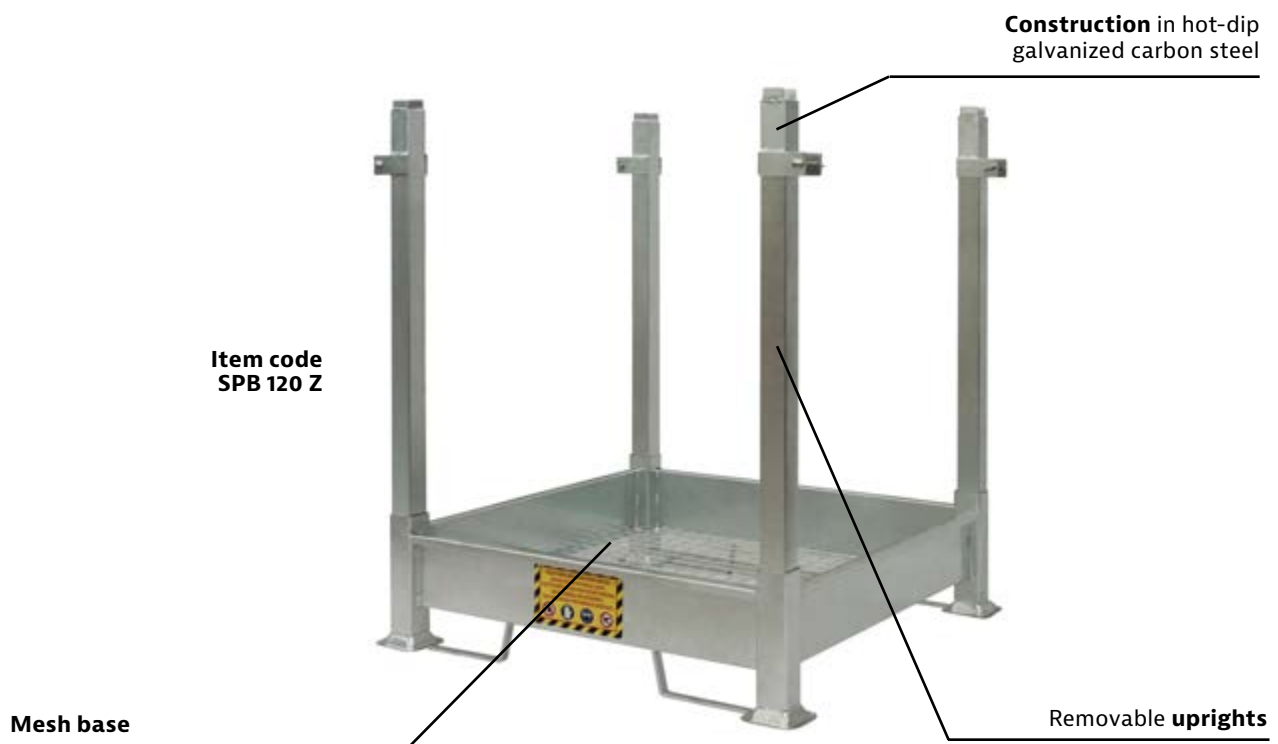

Accessories

ITEM CODE	Description
PALN120	Steel support plate
INSPLUS120	Plus insert with 3 sack attachment positions
